SMART KITCHEN SYSTEM - SKS

Renau's Smart Kitchen System helps operators ensure that hot, and fresh coffee is available at all times. The Thermal Freshness Tracker can be used with the Smart Kitchen Timer to alert staff on when it's time to replace expired coffee, or brew more. Connect to Renau Cloud for additional insights which can help reduce waste and improve forecasting. Elevate staff performance and increase quality and consistency with the SKS line of products. Call or email to learn more.
