

CONVENIENCE STORE SOLUTIONS

SKS
SMART KITCHEN SYSTEM

Convenience Stores have evolved from solely providing fuel to being a destination of unique foods with full kitchens. Managing all these food items and critical control points can be both challenging and time consuming for any operator. From making sure the coffee is always fresh and full, beverages are cold but not frozen, and hot foods are kept at the right temperature for the correct amount of time...Only Renau's Smart Kitchen System with time and temperature management enables your store to maintain optimal performance.
